Bids Now Being Accepted – Custom Fire Pit Ring!

Marion alum, Dave Graham (MHS '72) and Gary Albaugh (MHS '74) have designed and fabricated two stainless steel, Marion Indians fire pit rings. Dave and Gary are employed at Marion Mixers, who donated the material for the project. Proceeds from their generous donation will be used towards the Foundation's mission to provide educational enhancement opportunities for Marion students.

The first ring was auctioned off at the Foundation's 7th Annual "For the Love of Marion" event in February. Bids for the second ring are now being accepted through the Foundation office.

There are two ways to submit a bid:

1.) Log on to the Foundation website and click on the photo of the fire ring to go to the auction page. From here you can check the current bid then fill out the form to submit your bid. (The current bid will not update automatically, we aren't that hi-tech!)

2.) Call the Foundation office at (319) 377-4691 x.1110 to check the current bid and/or make a bid.

Bidding will close September 27, 2013. The winning bidder must arrange to pick up the ring from the Foundation office, or pay any additional for shipping. (It's heavy!)

1943 Marion Basketball Team

The History of Marion Basketball

Steve Roth (MHS '74) is compiling the 105-year history of the Marion High School boys basketball teams. He expects the final product to be a 3,000 page work that includes team and individual records, season summaries and statistics, and box scores with transcribed newspaper articles for more than 2,000 basketball games. The basketball program at Marion began in 1908.

Plans are to break this material down into an all-time record book, as well as season-by-season booklets, and make them available for sale with proceeds going to the school. He plans to have the material completed by the start of the 2014-15 basketball season.

If anyone has old game programs, photographs, other pertinent information, or is otherwise interested in this project and might even be willing to help, please contact Steve at rothcrew@cox.net.

F.L.Y. Provides Lunch to Students During Summer

Feeding Lunch to Youth (F.L.Y.) serves free lunches to Marion youth every weekday during the summer. Students may come to Starry Field beginning Wednesday, June 5th between noon and 12:30 p.m. to receive a lunch. Lunch bags include a juice box, sandwich, fruit, dessert and a sweet treat. Lunches are served by volunteers from local churches and businesses. For more information about the FLY program, visit www.flymarion.org.

Original bricks from the old MHS/VMS building are available through the Foundation office. Each brick comes with a certificate of authenticity and can be yours with your contribution to the Foundation of \$50 or more. The bricks have been enhanced with a gold plate engraved with the image of the original building. Shipping is just \$12 per brick (may include a brief note upon request). If your gift exceeds \$200, we will ship your brick at no additional cost.

Special Effects Salon & Spa

500 Marion Blvd. Suite 102, Marion
(319) 395-0434

Wanda (Bradley) Hughes (MHS 1993) received her training from Capri Cosmetology College. Her salon has been at its current location for four years, but Wanda has been in business for 18

years. Wanda is married to her high school sweetheart, Brian Hughes. They have two children, Ryah and Ryne. Wanda “truly believes you make life happen! I have learned to never take it for granted!”

Marion Athletic Hall of Fame Website Expanded

Thanks to the efforts and donations of Dan Kellams (MHS '54), Chuck Kent (MHS '54), Steve Roth (MHS '74), Jim Roth (MHS '77) and Kevin Techau (MHS '77), the Foundation has assisted the Marion Independent School District in providing profiles of all Marion Athletic Hall of Fame members. The expanded listings are available on the Foundation website www.marion-foundation.org under “About > The District.” You may also link to the Hall of Fame from the Marion High School webpage.

2013 Marion Fund Grants Awarded

The Marion Fund internal grant program, sponsored by the Marion Independent School Foundation and Alumni Association, supports educational experiences and enhances opportunities for the students of the Marion Independent School District. This unique opportunity is available to only a handful of districts across the country. The 2013 selection committee included: David Canaday, Phil Cochran, Reggie Long, David Law, Boyd Potter, Greg Van Gorp, Jill Ackerman, Jeane Eagle, and Mike Cira. Requests for funding must be aligned with the mission statements of both the District and the Foundation. After receiving funding, grant recipients must also submit a written evaluation of their projects. 2013 Marion Fund grant projects are listed below with the name of the lead applicant/teacher and the school(s) impacted:

Outside the Walls

Alan Read – Vernon Middle School

Expose adaptive PE students to a variety of community outings or field trips (i.e., zoo, YMCA, parks, etc.).

RCCM Artist Residency

Amanda Freese – Francis Marion Intermediate & Emerson Elementary Schools

Bring live interactive chamber music and professional musicians into 2nd thru 4th grade classrooms for a more engaging and hands-on learning experience.

Calming Classroom Connections

Kinga Balint Langel – Marion High School

Purchase specific equipment as sensory and positive reinforcement training in the classroom, which provides control and regulation for students with behavioral disorders and learning disabilities.

Motivating Students with ADD/ADHD

Michelle Thomason – Vernon Middle School

Purchase assistive classroom equipment (MotivAiders) to help students learn to self monitor behavior and stay on task during class.

One Day in May

Becky Herman – Marion High School

Purchase supplies for this building-wide day of service in the community, which focuses on beautification and revitalization.

Student participants in Hot Fun in the Summertime – a 2012 Marion Fund grant recipient – take a moment to explore a pond while visiting the Noelridge Park Greenhouse last summer.

Kid Fitness

Corey Meth – Emerson Elementary School

Equipment that will enhance and accelerate learning through exercise.

The Sun

Amy Tursi – Marion High School

Specialized telescopes and filters for students to have opportunities to deepen understanding of the sun and how its energy effects the planet.

7 Broke Women of Science

Carolyn Munson – Vernon Middle School

Equipment, charts and other support material to enhancement and improve science literacy through interaction and collaboration.

Assistive Technology

David Canaday – Marion High School & Vernon Middle School

The grant funds will purchase iPads for teachers who have Individualized Education Program (IEP) students with iPads so they can assist the students in learning to use their device.

Biotechnology Enhancements

Charles Clark – Marion High School

Purchase a steroclave and shaker table as enhancement equipment to support the new Biotechnology Engineering class offered in the fall.

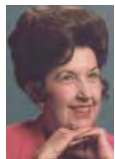

Robotics Expansion

Chris Martin – Marion High School

Expand the current robotics program to include a second competition team and purchase starter kit and supplies.

Alumni Association Remembers Lost Alum

The Marion Foundation not only enhances the educational opportunities of current Marion students, but also serves decades of Marion's alumni and former staff through its Alumni Association. By assisting with reunions, recognizing alumni civic contributions and serving as a community resource we have built many lasting relationships. The *In Memory* page of the Marion Foundation website includes a list of alumni and teachers who passed away this year and the previous year. Updates may be submitted to our office at any time. Here we would like to share a bit more about three recent losses whose contributions to the Foundation, MISD and greater Marion community deserve additional note.

Marjorie Reynolds

Some would call her *fiesty* or *hard-nosed*, but all would agree she cared about her students.

Miss Reynolds taught 5th and 6th grades at Lincoln, Irving, Longfellow, Starry, Mentzer and Emerson from 1946-1992 and earned the respect of students, parents, fellow teachers and the community. Sporting her ever-present "school teacher" hairdo, Miss Reynolds maintained her great sense of humor, quick wit and a commitment to community long after retiring from teaching. When the 85 year old passed away last November, words of condolence poured in from decades of students who will never forget their beloved teacher.

Larry Martin, MHS 1941

As a member of the prestigious golf foursome "The Anteeks," Larry Martin was a force to be reckoned with. He golfed in every Marion Foundation golf outing; even stepping in to volunteer when he was no longer able to golf. Larry was known for his joke-telling, charm and contagious smile. He served his country during WWII and his community via the Marion Library board and Marion City Council. But foremost, Larry was a family man. His wife, Marjory (Ostrander) Martin and children, Deborah, Cynthia, Laura and Reed are all Marion alum. After celebrating this Mother's Day with his entire family, Larry peacefully passed away at the age of 90.

George Klingler, MHS 1950

"Our father was a proud graduate of Marion High School. He loved his school, classmates and educators. He attended all of his class reunions. He was honest, fair, kind, generous and had admirable integrity and humility," memorialized his children Ric, Paige and Marty, in a recent card to the Foundation. For 38 years, George owned and operated George Klingler Painting and Decorating. He was a community volunteer, enjoyed cooking, fishing, and had a great sense of humor. George also gave generously. When the Foundation asked, he gave. Even when the Foundation didn't ask, he gave. At 80 years old, George passed away on April 7.

MISD Leader Awards Presented at For the Love of Marion Event

The 7th annual *For the Love of Marion* fundraiser was held on Friday, February 22, 2013 at Lowe Park Arts & Environment Center. The evening featured gourmet hors d'oeuvres by Kristeen's Café, the Pat Smith and Rich Wagor jazz duo, a Plinko game sponsored by Philip's Diamond Shop and Design Center, and a silent auction.

The Marion Independent School District Leader Awards are presented annually at the *For the Love of Marion* event.

Nancy Alderdyce
District Nurse

Deb Menken
Vernon Middle School

Greg Semler
Marion High School

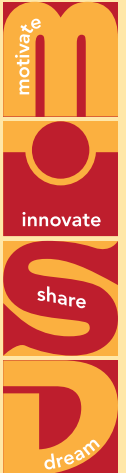

Recipients of this award have been nominated by their peers, and are recognized as going above and beyond for the benefit of their students and the greater Marion community. Honorees for 2013 include Nancy Alderdyce, who has served as district nurse for 25 years; Deb Menken, a science teacher at Vernon Middle School for 25 years; and Greg Semler, who has been with the district for nine years and has been the Marion High School principal for the past two years.

Pinion's Perspective

Sarah Pinion, Superintendent

The second half of the school year was kicked off with this visual reminder of the goals and vision we have for this district. The words Motivate, Innovate, Share and Dream represent the passionate teaching and learning experiences we embrace at Marion. We want to dream and focus on possibilities. Please enjoy reading about the great things going on in your schools.

Robotics Program Expands

The MHS Robotics team competed in several events this year. They twice received recognition

for their excellent community service and outreach efforts. The team would like to thank their sponsors for their support.

For the upcoming school year additions to the program will include: a second robotics team; a cyber-defense team; and an ambitious project to build a medieval trebuchet. If you are interested in supporting any of these projects with your time, talent, or funds please email Chris Martin at cmartin@marion-isd.org.

The Science Club at Vernon Middle School, lead by Deb Menken, has been the proud recipient of a STEM Grant for the last 4 years including the upcoming school

year. The grant has allowed for several fascinating field trips and to purchase a variety of science exploration kits, a forensic unit, microscopes, supplies and protective gear. Grant funds and community donations have also been used to construct and equip a greenhouse, which sits on the south side of Vernon and will be completed soon.

5th grade choir working toward Learning Targets

Dedicated Staff Work to Enhance Music Education

Iowa Core has been a part of the education vocabulary in Iowa for the past few years. As a part of their own work with Iowa Core, music educators Sarah Jones, Emerson Elementary, and Amanda Freese, Francis Marion Intermediate School, have been working with the MISD k-12 music team to develop learning targets and “I can” statements. These will help direct instruction along a learning trajectory that will guide students through their music education career in MISD.

In addition, Jones and Freese have been implementing a formative assessment tool developed by Jones. This tool allows students to receive real-time feedback that helps them take ownership of their learning goals. This ownership provides students with valuable knowledge about what they need to know, what they do know, and what they still need work on for full mastery of the skills and concepts.

Jones and Freese have been selected to share their work

at the 2013 NAfME National In-Service Conference in Nashville, TN, on October 27-30. The title of their session is “I can... How targeted goals can enhance music education.” They will also be attending the conference and bringing home a number of useful strategies to implement within the district’s music program.

In addition to presenting nationally, Jones has led district-wide staff development on learning targets and both Jones and Freese were presenters this past year at the Grant Wood AEA “Cultivating Creativity Symposium” and the North Central Iowa Music Educators Association spring workshop.

MISD Meets Annual Progress Goals

Each year Marion Independent School District is required to set annual improvement goals based on the previous year’s Iowa Assessment data. Goals are developed by the Comprehensive School Improvement Committee in the areas of reading, math and science. The developed goals then are presented to the school board for their consideration and adoption.

The following are the 2012-13 APR Goals;

- 1) As of May 2013, the class currently in grade seven will have shown an increase of more than 11 points on the Iowa Assessment Reading test as eighth graders as measured by the National Standard Score. Because the students in the eighth grade increased their National Standard Score by 22.2 points, MISD met their goal in the area of Reading.
- 2) As of May 2013, the class currently in grade four will have shown an increase of more than 14 points on the Iowa Assessment Mathematics test as fifth graders as measured by the National Standard Score. Because the students in the fifth grade increased their National Standard Score by 16.2 points, MISD met their APR Goal in the area of Mathematics.

Photo courtesy of Tia Hale

Literacy and Social Studies teacher, Kevin Hahn works with a Vernon 5th grade student.

- 3) As of May 2013, the class currently in grade eight will have shown an increase of more than 10 points on the Iowa Assessment Science test as ninth graders as measured by National Standard Scores. Because the students in the ninth grade increased their National Standard Score by 26.2 points, MISD met their APR goal in the area of Science.

Meeting APR goals for a district is something to celebrate. Thank you to all of the educators that impact our students everyday. Also thank you students for the effort that you gave in demonstrating your learning.

MHS Autism Teacher Plans “Connections Center”

At least 69 of the Marion Independent School District’s 2920 students, have been identified as special needs. MHS autism teacher Annie Bradford’s plan for a Connections Center will offer basic life skills and vocational training, skills development and confidence building for students that are in need of the services.

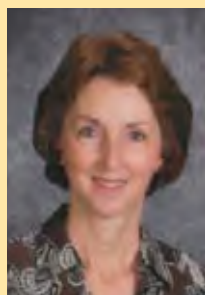

MHS autism program students worked alongside MHS classmates during One Day in May at the Ceramics Center in Cedar Rapids.

The Marion Foundation recently committed \$5,000 to fund the purchase of Task Boxes containing activities and tools to help teach basic and vocational skills to students. But the Boxes are just one component of the new Connections Center. A room at the school will also be redesigned and equipped to resemble an apartment so students can learn to cook and care for themselves.

The Connections Center is seeking donations of new or gently used cabinetry, countertops and appliances for the center. If you have items you’d like to donate, or would just like to learn more about the MHS Autism program, contact Annie Bradford at abradford@marion-isd.org or visit <https://sites.google.com/a/marion.k12.ia.us/autismmhs/>.

Two Outstanding Teachers to Retire from Vernon

Bonnie Dodge

Reading has been my passion ever since I was a little girl and my mother began taking me to the public library. I have devoured books ever since. To quote Thomas Jefferson: "I cannot live without books." When I was in grade school, I wrote a book and wanted to become an author. As an adult I made use of my music degree and

began teaching private music lessons, something I continued doing for 40 years.

I came into teaching language arts later in life but felt that teaching was a calling for me because I wanted to share my love of reading and writing with students, as I had been sharing my love of music. No profession demands more yet pays greater rewards than teaching. I have devoted the last 20 years to helping young adults discover the power of words and the pleasure of reading. For those who were already readers, I loved helping them discover new genres they wouldn't have otherwise chosen. And for those who hated to read (and there were many!), I worked diligently to help them find a book they could enjoy.

My classroom library was an essential tool. Nothing has given me more satisfaction in my career than to hear a student who hated reading at the beginning of the year say to me by June that he/she now enjoyed it. And to help non-writers discover that words give them a powerful voice. These are my greatest joys because those students will keep reading, keep writing, keep learning, keep experiencing all that literature has to offer, and hopefully instill the importance of reading and writing in their own children. What could be more important than that? I wanted my students to develop the skills necessary to be productive in the 21st century, to be informed citizens, articulate writers, and lifelong

learners. I had high expectations, and I know many a time students grumbled about it. I hope they all someday realize why I challenged them and pushed them so hard. I have loved being a teacher. I hope I have made a difference in their lives.

To all my former students, I want to say keep reading! Make the time. It's important. To all the parents, thank you for your support of my goals. To those who have children still in school, I say, there is nothing more important you can do to help your child than to be involved in their activities and keep them reading. Confucius said, "No matter how busy you may think you are, you must find time for reading, or surrender yourself to self-chosen ignorance." I say, reading is a lifeline. Let it lead you to knowledge of yourself, of others, and of the world. – *Mrs. Dodge*

Gwen Buchheim

It is with fond memories that I retire from my teaching position in the Marion district. This has been my home away from home for my entire 33-year teaching career! Because of the many positions I have had during this time, I have had the pleasure of getting to know many, many students and their families. Kids with so many stories to share,

both heart warming and heart breaking, have touched my heart. I have also been lucky to work with some amazing colleagues and have made many friendships that I will treasure forever! It is time, however, for me to focus on those people whom I love the most, my family. Husband, kids, grandkids and other family members that I hold dear to my heart! It is also time to get going on that bucket list! So many things to accomplish... driving a cab, being a mascot, seeing a Bon Jovi concert and hopefully, just hopefully... meeting John Travolta some day! Keep in touch, I sure plan to! – *Mrs. Buchheim*

Vernon Students Win Science Award

Vernon Middle School 7th grade students Stephanie Fisher (left) and Chloe Parenteau participated in the Eastern Iowa Science and Engineering Fair on March 16. Chloe and Stephanie competed against 246 other students from eastern Iowa. Their project "Follow the New Brick Road" received a Class 1 – the highest Junior Teams distinction with a blue ribbon, medallion and \$50 prize. The students were sponsored by Mrs. Carolyn Munson, Vernon 7th grade science teacher; Dr. Danielle Jannusch, Marion assistant city engineer and Maryann Shinrock, Marion city engineer.

Jump Rope for Heart

Jump Rope for Heart is a 35-year old campaign, a fundraiser through the American Heart Association that raises money for research. Each year, students get donors to sponsor them, then they jump rope and watch the dollars grow. Starry PE teacher, Jason Haag, spearheaded this campaign so that the entire building could participate. Haag held the event during students' PE times for one week. Rope events included individual, long jump ropes, stick jumpers, hurdle jumping, hula hoop jumps and partner jumping.

MHS junior Heidi Schmidt won second place for her drawing, "Jasmine," in Iowa's First Congressional District of the annual Congressional Art Competition – a nationwide high school arts competition sponsored by the U.S. House of Representatives.

MHS senior Scott Munier, bass trombone player, was selected as a member of the Class 3A All-State Jazz Band. He is one of only four trombone players selected from across the state for Class 3A – a very prestigious accomplishment.

MHS juniors John Gorman and Evan Kramer have been invited to speak at the Marion-East Cedar Rapids Rotary Club on June 25 at the Longbranch.

John and Evan are members of Marion's Fellowship for Christian Athletes (FCA) organization which is headed by PE teacher, Lori Dostal. They will talk about the FCA program and its impact on the lives of student athletes.

Marion Home School Assistance Program Mock Trial Team Captures State

Team Blackhawks, one of four Marion Home School Assistance Program Mock Trial teams, advanced to the regional competition and defeated Valley High School in West Des Moines to capture the championship in the 2013 High School Mock Trial State Tournament on March 28. This historical win by a home school team was a first in the 31-years the tournament has been held in Iowa. Team Blackhawks won five trial rounds to become the Iowa State Mock Trial Champions! The team competed at the National Championship in Indianapolis, IN on May 10 & 11. Here the team placed in the upper half; with competition from 46 different states and U.S. Territories.

Blackhawks team members (l. to r.) Ben Carlile, Mark Scaffidi, Jeshua Smith, Ryan Carlile, Coach Jon Church, Allie Hagerman, Gabe Groothuis, Abby Leonard, Sebastian Groothuis, Cole Flatland, and John Wheeler, director of the Iowa Bar Mock Trial program. Cole Flatland also won All-State Witness.

A second team, The Crossfires, were also state contenders and were coached by Kathryn Church. Pictured (l. to r.) Sasha Forret, Luke Telecky, Alyssa Telecky, Eli Duval, Claire Freitag, Steven Biegler, Nick Leonard and Noah Smith. Nick Leonard also won All-State Witness.

Mekela Spence, Vernon Middle School 7th grader, won the "If I Were Mayor" contest and receives recognition from Marion Mayor Snooks Bouska.

On May 13th, Marion High School students and staff participated in their third annual day of service learning called "One Day in May." All of Marion High School's students and staff (over 600!) helped beautify and improve Marion and surrounding areas through volunteering.

Students helped with a wide variety of tasks, including landscaping, maintenance, beautification, and painting.

Locations and organizations where students and staff worked included Lowe Park, Granger House, Trees Forever, Empty Bowls, The Boys and Girls Club, Catherine McAuley Center, the Marion YMCA, Merrill Garden, Echo Hill, Camp Wakonda, Camp Waubeek, Camp Courageous, Oak Shade Cemetery, Cedar Rapids Animal Shelter, Cedar Valley Humane Society, Buffalo Creek County Park, and five local nursing homes.

Contributors who helped make the day possible through sizable financial assistance, donations of food or contributions of supplies included the Marion Independent School Foundation & Alumni Association, Western Fraternal Life Association, Zoey's Pizzeria, Ruffalo Cody, Network Computer Systems, Linn Animal Hospital, Zio Johnno's, Ollinger Garage Doors, Hills Bank and Trust, Walmart, Fosters Heating and Air Conditioning, Thrivent Financial, Guppy's on the Go, Network Computer Solutions, Joel Grandon Accounting Services, Subway, and Marion Iron Co.

If you have interest in adding a site to the future event, or would like to donate financial, time or in-kind contributions, please contact Becky Herman at Marion High School at (319) 377-9891, ext. 1169 or email her at bherman@marion-isd.org.
